SHIVAM MOHAN PRABHAKAR

Purnia, Bihar • shivammohan330@gmail.com • linkedin.com/in/shivammohan • github.com/shivammohan-hub

EDUCATION

Vidya Vihar Institute of Technology — **Purnia, Bihar**
Bachelor of Technology in Computer Science and Engineering — *Expected Graduation: 2027*

- **Relevant Coursework:** Artificial Intelligence, Data Structure and Algorithms, Database Management Systems (DBMS), Operating System, Object Oriented Programming, Web Designing, Software Engineering, Web and Internet Theory

TECHNICAL & PERSONAL SKILLS

Languages:	Python, JavaScript, HTML, CSS
Frameworks & Libraries:	Django, React, Tailwind CSS, NumPy, Pandas
Databases:	PostgreSQL, MySQL, SQLite
Tools & Environments:	Git, GitHub
Soft Skills:	Team Leadership, Problem Solving, Workflows Management
Spoken Languages:	English (Professional), Hindi (Native)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Introduction to Generative AI — Google
Operating System — NPTEL
Soft Skills Development — NPTEL

TECHNICAL PROJECTS

Innovate360 | Django, JavaScript, HTML, Tailwind CSS — **Smart India Hackathon 2026**

- Led a 6-member team ("The Innovaters") to engineer a dual-portal government-startup procurement platform for SIH Problem Statement 26136 (Government of Maharashtra).
- Engineered an interactive, responsive frontend utilizing JavaScript and Tailwind CSS to streamline public procurement application workflows.
- Architected Django backend models and role-based access control to manage startup submissions, evaluation pipelines, and government portal dashboards.

AssetsTracker - Asset Tracking System | Django, HTML, Tailwind CSS, PostgreSQL

- Designed and deployed a full-stack organizational asset tracking web platform featuring granular user permissions and authentication.
- Built manager and user dashboards using Tailwind CSS to monitor hardware allocation, asset lifecycle, and real-time maintenance statuses.
- Integrated a high-performance PostgreSQL database for optimized querying and scalable storage of enterprise hardware assets.

MobileVerse - E-Commerce Application | Django, HTML, Tailwind CSS, SQLite

- Developed a mobile-first e-commerce web platform focused on intuitive product catalog browsing, search filter, and dynamic cart management.
- Leveraged Django MVT architecture to handle backend business logic, dynamic HTML rendering, and seamless user session persistence.
- Ensured cross-device responsiveness and fluid visual styling using Tailwind CSS design systems.

LEADERSHIP & CAMPUS INVOLVEMENT

- **Team Leader, Internal Smart India Hackathon (2026):** Supervised sprint planning, task delegation, and technical roadmap execution for a 6-member engineering team during national hackathon preparation.
- **Workshop Organizer — Institute-Level DBMS Workshop:** Planned, coordinated, and conducted a technical workshop on Database Management Systems at Learn Syntax, training fellow students on database principles, queries, and schema design.
